

MEDICAL WRAPPING PAPER

MEDICAL PAPER

This product has high surface strength, good printing effect, uniform and stable air permeability. The product is used for packaging medical instruments, with excellent microbial barrier performance. Composite with plastic film or coated paper with different thickness has better heat sealing strength and excellent clean stripping performance.

FEATURE

Good strength

A high level of heat seal-ability and peel-ability

Good printability

Superior bacteria barrier qualities

SPECIFICATION

GRAM (g/m ²)	40.0
MOISTURE (%)	5.5
THICKNESS (mm)	0.048
TENSILE STRENGTH MD (N)	49.4
TEARING STRENGTH CD (mN)	274
SMOOTHNESS PS/RS (s)	402.4/59.2
OBA	negative
